

# Mermaid Finest Swimming Pool Salt

## Product Description

Mermaid Finest Swimming Pool Salt is naturally evaporated solar salt (sodium chloride). This product is a translucent to white solid and a mixture of medium to fine granules. It has a mean particle size of approx. 0.8mm to 1mm. It is produced in Australia by natural solar evaporation of natural salt water brines, harvested, double washed, dried and sized before packing. Mermaid Finest Swimming Pool Salt is made under a quality system that complies with ISO 9001. Suitable for swimming pool use only.

Note: designed essentially for swimming pools with salt chlorinators however salt may also be used in most chlorine treated pools for that natural feel - please discuss with your pool professional / pool shop owner for details.

## Storage Conditions

Clean, dry storage and transport conditions are required to keep the product as delivered. Conditions less than 75% relative humidity are most suitable. Fine grain salts are particularly susceptible to caking. As a guide this product should be used within 6- 9 months from manufacturer date to avoid significant caking problems. Product should be stored inside or out of direct sunlight to prevent UV damage to bags. Customers should assess their own individual needs for order frequency, stock rotation, stock levels and local condition.

Issued: 16 September 2020

### Chemical Analysis

Purity (% NaCl min dry basis)	99.4
Moisture (% max)	0.50
Insolubles (% max)	0.05
Magnesium (mg/kg max)	500
Calcium (mg/kg max)	1000
Sulphate (mg/kg max)	2500
Iron (mg/kg max)	10

### Grainsize (Cumulative % Retained)

	Min.	Max.
2.0 mm	0 %	5 %
1.70 mm	0 %	15 %
0.425 mm	60 %	100 %
0.15 mm	85 %	100 %

through 0.15 mm not greater than 15 %

### Additives

Contains no additives	
-----------------------	--

## Country of Origin

Product of Australia

### Palletising - Standard

Bag Size	20kg net	20kg net
Pallet type	Chep	Chep
Bags per pallet	60 bags	64 bags
Pallet Weight	1.2 tonne	1.28 tonne

\* Also available in other pack sizes by negotiation

### Protection and Labelling

Packed and sealed in woven polypropylene bags
Bonded internal laminate with polyethylene liner
Pallet slip sheet; Stretch wrapped
Date of packaging: DDMMYY- used for traceability (as a minimum)

### Application

#### DO NOT:

- Place full bags of salt in the pool
- Pour salt all in one place in the pool
- Add salt to skimmer box

#### BEFORE SALT IS ADDED

1. Test pool water for chlorine, it should be less than 3ppm
2. Test the pool for ph, it should be approximately 7.2 to 7.4
3. Adjust pool water if necessary

#### ENSURE YOU HAVE ACHIEVED CORRECT WATER BALANCE BEFORE MERMAID FINEST SWIMMING POOL SALT IS INTRODUCED TO YOUR POOL:

4. Turn off the chlorinator
5. Open bag and distribute entire contents evenly around the pool- do not place full bags of salt in the pool, for best results broom salt around the pool to dissolve
6. No more than 2 bags of salt distributed at any one time
7. Ensure salt is totally dissolved before allowing automatic pool cleaners to operate
8. Run filter for a minimum of 2 hours after the addition of salt
9. Turn chlorinator back on
10. Empty bags are a potential danger to children so dispose of appropriately
11. Cheetham Salt does not guarantee a clear pool in each instance and accepts no liability for any loss arising from the use of Mermaid Finest.

Note: Mermaid Finest Swimming Pool Salt can also be applied to some chlorine pools, giving a more natural swimming experience.

Please check with your pool shop professional to ensure that all your pool equipment is salt compatible.
